Genzyme is dedicated to ensuring that patients have access to Thyrogen. Genzyme's ThyrogenONE program combines an extensive distribution network of specialty pharmacies with centralized ordering and reimbursement support to help ensure patient and physician access to Thyrogen.

ONE Centralized System
for ordering and reimbursement support

ONE Reimbursement Support Form
for each patient referral

ONE Network
of specialty pharmacies

Understanding patient insurance benefits for Thyrogen, including Medicare and Medicaid, can be difficult. ThyrogenONE and the Thyrogen specialty pharmacy network are committed to helping physicians minimize reimbursement challenges by investigating the level of insurance coverage and the specific requirements for obtaining Thyrogen for each patient.
